## PERFORMANCE CHARACTERISTICS

RSV	Relative Sensitivity	Relative Specificity
NP swab vs Immunofluorescence	97.35%	98.15%
Nasal aspiration vs Immunofluorescence	96.49%	98.47%
Throat swab vs Immunofluorescence	97.92%	99.09%

## AVAILABILITY

Product	EZER™ Respiratory Syncytial Virus Antigen Rapid Test
Cat. No.	P211004
Test Device	20
Sterilized Swab	20
Extraction Tube	20
Nozzle	20
Package Insert	1

## TEST PROCEDURE

### Sample Preparation

NP Swabbing

OR

Nasal Aspiration

OR

Throat Swabbing

### Sample Preparation

## RESULTS INTERPRETATION

Positive

Negative
